THURSDAY EVENING, OCT. 27, 1892.

JUDGING FROM Secretary Foster's views on the use of money at elections, as printed in another column, that gentleman has a very poor opinion of a tary Elkins's wife, came here yester-day on the train with Mr. Elkins, and But why he should have particularized the Catholics, Lutherans and Methodists, of the religious denominations, dists of the religious denominations, dists, of the religious denominations, and the Irish, Germans, Swedes and Poles, of the nationalities that compose West Virginia. On the contrary, Col. the population, and the "labor fellows" and farmers, of the industrial classes, is hard to tell. Surely they are no more subject to the influence of money bribery than other people. Nor is it plain why he referred only to money bribery, as there are various other sorts, such, for instance, as the promise of the office of Secretary of the Treasury, or, as more glaringly illustrated, that of Postmaster General. That Mr. Foster's views on this subject are entertained by all the other members of the administra- that every negro in the county except tion is plain to be seen. As Long anticipated by the GAZETTE, Mr. Gilliam, the republican candidate for Congress in the Petersburg district, like all the other republican congressional candidates in the State, except one, Mr. Wood, in the 9th district, has stepped down and out, at the command of the boss of the Virginia republicans, General Mahone. They had to do so. It now remains to be seen whether the reputable white republicans of the State who are not office seekers will renounce and repudiate all their political principles by voting for third party candidates, men who have deserted the democratic party and joined one whose principles are even more at variance with their own than those of the democracy, and who would tax them to pay the difference between the value of of this city have made arrangements gold and the greenbacks in which the with the railroad companies here by ederal soldiers were paid for their ser- which they can buy railroad tickets for vices during the war.

MR. ROBERT LINCOLN, who abandoned his post as U. S. Minister to London to come back to this country to "work" for the reelection of the man who appointed him, under the supposition that as the son of his father the appointment would be popular, stood up before an audience in Illinois last night and said: "The policy of the republican party is simply to get, as a tariff tax, an amount equal to the difference between the wages paid in this country and those paid in Europe." FROM WASHINGTON. [Correspondence of the Alexandria Gazette.]

Washington, Oct. 27.

The fact that Senator Quay has taken charge of the republican campaign, and practically set Mr. Carter aside, is considered by the democratic politicians also the necessity on the part of the democrats of being even more diligent and more in earnest than ever, for the junior Pennsylvania Senator is worthy the steel of the most crafty men in the democratic party, and what he doesn't know about election cheating isn't worth knowing.

Mr. T. B. Davis, the uncle of Secre-Davis is a strong democrat, and he says he is alarmed about the condition of Black, a Pennsylvania republican, who settled in Jefferson county, West Virginia, since the war, and who will vote for Mr. Harrison, says the talk about West Virginia going republican is all bosh; that it is safe as for the democrats as any other southern State, and that his county will increase its democratic majority by at least five hundred votes. Sheriff Veitch of Alexandria county, Virginia, is here to-day. He says there are no third party men in his county, and that some of the men who have left the democratic party in recent years have now come back to it, but one will vote the republican President ial ticket. That exception, he says, is Nelson Wallace, who received a pension and a large arrearage during Mr.

Cleveland's administration.

Gen. Adlai E. Stephenson, demo-cratic nominee for the Vice-Presidency, and Congressman Isidor Rayner, of Baltimore, were the speakers at a large and enthusiastic meeting in Brooklyn last night. Gen. The democratic division in Alabama created by the August election is gradually healing up. The men who led that portion of the democratic party which refused to support Governor Jones, the regular democratic candidate, last August, have long since entered into a combination with the Moseley and Magee republican faction. They made the mistake, however, that they could bodily transfer all those democrats who voted for Kolb. Every day it is more and more developed that the bulk of the men who supported Kolb and who had heretofore been demerats, will refuse to follow Kolb and Bowman, the chairman of his committee, and the main conspirators in the movement to deliver the electoral vote of Alabama to Harrrison in case he

In addressing his leaders assembled in conference at his residence in Petersburg several nights ago, Gen. Mahone is reported as advising them to return to their homes and to work for the election of Harrison and Reid and for the third-party candidates for Congress. He in no wise recognized Mr. S. Y. Gilliam as a republican candidate for Congress and his party was instructed to work for the people's party candidate, Mr. J. Thomas Goode. Mr. Gilliam sent out a circular letter withdrawing his acceptance of the nomination in deference to the advice of leading republicans connected with the administration at Washington, and throwing upon them the responsibility for whatever rest, trial and removal, is now one of "Dave" Martin's election "workers" in New York.

may flow from it. In conclusion Mr. Gilliam says: "I deem it my duty to say to you that in this district with an admitted republican majority of about 8,000, I confidently believed that my party would have in the field at the Noember next election a candidate for Congress. I urge all my friends to register and actively and earnestly support Harrison and Reid, and on election day to work and vote for the republi-can electoral ticket." The reports which come to the na-

tional democratic headquarters in New York from the close and doubtful States are of the most encouraging character. This is especially true of New York, New Jersey and Indiana; indeed, it is understood that the republican managers privately admit that even with the large campaign fund at their disposal their fight in New York is almost a hopeless one. The indica-tions are that the democrats will carry Wisconsin by a small majority and that they will get not less than six electoral republican leaders to carry West Virginia and Delaware will not succeed. At least, this is the opinion of a sagacions democratic leader who is thoroughly familiar with the situation in each of the States named. Mr. Dick-inson said Monday night: "The fight is in New York, New Jersey, Indiana, o the Warrenton Virginian:

He is a tower of strength to the committee.

In the instructions to the Tammany leaders In the instructions to the failmany leaders last night Mr. Croker said: "It is well for the speaker to state to the audience, that he has the most positive assurance that Cleveland and Stevenson will carry the State of New York by a very large majority."

Ex-Secretary Whitney, who was in Boston resterday, said: There's one thing you can ay with assurance. The democratic outlook New York is as good as in 1888 and much better than in 1884, and we are confident of winning with a good, comfortable majority." At the democratic headquarters in New York last night it was said that the republi-can managers have practically abandoned all hope of carrying that State, and are now mak-

Money at Elections.

In respect of the use of money at elections Mr. Foster, Secretary of the Treasury, and now actively engaged in the "work" of securing the re-election of the present administra-

tion, speaks as follows:

"I've been approached in almost every campaign by churches and asked to subscribe to funds, on the assurance that it would help me politically. I don't see much difference be-tween the saloon and the church in that. And tween the sation and to cultivate the church.

The Pastoral Letter.

As stated in Wednesday's GAZETTE the Episcopal Convention closed in Baltimore on Tuesday night with the reading of the pastoral letter-the Bishop's letter to the people. It was was read by Bishop Thompson, of Misulating the convention on the completion and adoption of the Revised Prayer Book and calls on the clergy and their public worship and the administrathe church strictly according to its rubries. The second part is devoted to Christian unity. The stand taken by the Episcopal Church is clearly defined and satisfaction expressed at the results thus far accomplished. The third treats of the canons of ordination and advises due preparation of the candidates for the ministry.

The fourth is addressed to the clergy

with respect to the sermous. They are advised "to preach the Gospel" and the latter goes on to say :

"It has seemed to us that this prime duty has been somewhat obscured. have nothing to say here of the relative importance of preaching and adminissuch that our people should become clamorous for less and less of it. Make the pulpit a throne light. Let it teach, not al to move or excite emotion, least of all periods, beautiful diction and graceful delivery. Definite, positive doctrine about the deepest things is ours to teach if we have it, but if only guesses of our own and speculations which are the froth of common surface, thought less thinking, then our place of utterance may be anywhere in all the world save in the pulpits of the Church.'

The fifth reminds the clergy that they must care for the lambs as well as for the sheep, and the education of the young is referred to in unmistakle language. The sixth refers to "an evil we seen and much bemoan,a growing tendency toward a short and uncertain

tenure of pastoral office."
